Our History

In 1858, four men, Virgil Hickox, Cornelius Flagg, Joseph Ledlie and David Sherman bought, surveyed, and platted what is now called Sherman. The town's name was a result of the luck of the draw. The four men placed their names in a hat and David Sherman's name was drawn. One of the subdivisions in Sherman designated as Flagglard Parks, was named after Cornelius Flagg.

Early settlers in Sherman were predominantly Italian and involved in the coal mining industry. Sherman was incorporated as a village in 1959 with a population of 209 people. John Jerome served as the first village president and held the position until his death in 1978. Sherwood Zimmerman was appointed to fill out the term and held the office until 1987. In April of 1987 Frank Meredith was elected as the Village President. Trevor Clatfelter was elected Village President in May 2007 and remains in that position today.

During the 1970's, Sherman began to grow due to its proximity to Springfield and Interstate 55. Sherman's first growth was primarily residential. Sherman continues this growth pattern today and currently has a population of a little under 5,000.

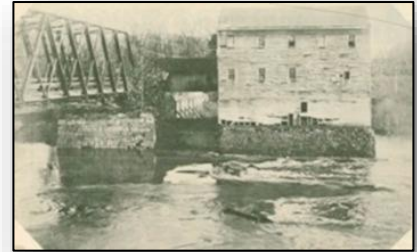

The Village is a little-known location of a small unused portion of the original Illinois portion of Route 66. This segment underscores the fast-paced evolution of Route 66 in Illinois. Designated as a part of the Mother Road in 1926, it was quickly replaced in 1930 with a major realignment to the east.

Sherman is the home of the Rail Golf Course. It is a championship 18-hole course which until 2007 hosted the annual Labor Day Rail Charity Golf Classic, the second longest running golf tournament in LPGA history. The event drew thousands of visitors to Sherman annually and generated nearly two million dollars for local charities.

Sherman is considered a family-oriented community with many organized youth activities. The school system is consolidated with the Village of Williamsville, which has a proud history of excellence in education and athletic success.

If you are searching for a safe place to raise your family, we ask that you consider visiting Sherman. We are proud of what we have to offer and welcome you and your family to see what we have to offer.

Grinder Pump Failure

The Village's Grinder Pump Sanitary Sewer System was originally chosen for use in Birch Lakes Subdivision and other areas of the Village as the most cost-effective way to provide service. The Village has approximately 135 grinder pumps to take care of. The reason we need grinder pumps is that they grind solid waste up so it can be pumped through the sewer line.

Grinder Pumps Have Limitations. There are certain things that can cause damage to the grinder pump. Damaged grinder pumps not working properly due to misuse can cause back up into the home. This can cause serious damage, unsanitary conditions and costly service fees and fines. To avoid this from happening use common sense and DO NOT FLUSH the following items down the toilet. Dispose of these and similar items into the garbage.

- Grease from cooked food, glass, metal, toys, gravel/sand, coffee grinds, kitty litter;
- Female sanitary products, diapers, baby wipes, floor cleaning pads,
- Rags, plastic, personal wipes including so called "flushable wipes",
- Small solid objects, paper towels, string or other similar items.

If you see a grinder pump light on or have any issue with a grinder pump, please call public works at 217-496-2621 . **Failure to follow the rules will result in failure of the pump and fines.**

Permits & Licenses

Permits are required in the Village. Please do not forget since this ordinance violation results in a fine which is enforced. Applications and further information are available on the Village Website (<https://www.shermanil.org>). Permits are needed for:
